What is our research question: PBIS link in

## **Topic**

Teacher perception of student interactions

## **Research Problem**

Teachers are often asked to evaluate student work and quality of understanding. Teachers are seldom asked to rate their perceived student-interactions.

## **Purpose Statement**

The purpose of this study is to gather information about teachers' perceived student-interactions and attitudes.

## **Research Question**

How do teachers perceive student-interactions at three site-based locations within the metro-Los Angeles city area based on metrics from the School Climate Quality Analytic Assessment Instrument survey?

## **Participants**

The teachers-of-record who self-select at six work sites throughout the metro-Los Angeles city area across three educational network providers.
