

# Preprints demystified: an interactive workshop

Are you pro-open access but unsure of preprints?  
Or are you pro-preprint but your supervisor isn't convinced?

Come to our interactive preprint workshop and leave with the skills and confidence to ease through those conversations.

Example questions for discussion:

- If I post a preprint, is there a risk of getting scooped?
- Can I still publish in my favourite journal if I post a preprint?
- What are the benefits and the possible concerns?
