concerning life: new experiences are tend to distract the whole nation when the idea is totally disargued then zero change will happen. life attaches us from governed the reality by our own conscious meanwhile unconscious take place from unabilty toward deprivation of creating skinfall items ideas in linguistic. Human have preconceptions on purifying our souls our thoughts in which we don t need to understand then the world will see things in the really real. so my friend dig beyond the simpliest images of the universe , find your own view, your own perspective nd clear your thought and create a booklet in your mind about the new terminologies and your own defenition of the atmosphere the world. classify things as you see as you feel pass the random be mad be crazy enough to analyze facts let others think as they want be special unique and totally different don t be afraid of them but be afraid of the nasty devil inside yo. be easy conscious be hungry for realities change the horrible ugly hidden facts and overjoyed life as it is, do somerhing for yourself and help those who had no desire for life no ambitious ever .make your own contribution adequate to gain some distriction and pleaser in your studies for the reliesof humanity without asking no questions for the sake of conscious liberzte your soul for the festiness ofthe bodies just breathe nd be adventurous fon t give up because success in life comeswhen you simply refuse to gave up be responsible for your selfworth.

ACCEPT WHO YOU ARE PEOPLE WILL ACCEPT YOU
