**Generic Prophecies** is a hair loss drug is only for men, trusted by a maximum number of users throughout the world, Prophecies belongs to a class of drugs called 5-alpha-reductase inhibitors, which are used to treat conditions triggered by DHT. Finasteride, the active ingredient in Prophecies, stops the enzyme that converts testosterone to DHT and causes a decline in DHT concentration.it is believed that this drug has given very positive results and made hair fall treatable to a great extent. male baldness is a very common condition that affects most of the men in their middle age, as well as young age, this results in a receding hairline or balding or thinning of the hair on the scalped head. Prophecies are for use by men only and should not be used by women or children.

## How does it work?

**Generic Prophecies is a generic** (means a drug which does not have a trademark of a particular company) to the brand medication "Prophecies

Prophecies is basically a drug that is used for hair loss in men particularly on the vertex and the anterior mid-

scalp area. Hair loss in men is caused by a hormone called dihydrotestosterone, or DHT, which is produced by the adrenal glands, hair follicles, testicles and prostate gland. DHT is derived from the hormone testosterone. The enzyme 5 $\alpha$ -reductase converts testosterone to DHT.

**Prophecies** work by stopping the testosterone getting converted into dihydrotestosterone (DHT) in the body, the main cause of hair loss.

Prophecies are used for the treatment of male pattern hair loss on the vertex and the anterior mid-scalp area. This drug is specially formulated for men, women or children should not try it for treating hair loss. Men around the world trust this drug immensely as it has shown to stop or slow down hair loss by 80% if used on regular basis.
