¹Affiliation not available

July 28, 2018

Transaction Protocol:

Once the user will enter his details i.e start and the destination location, he has to set up with the payment option.

The Payment options are as follow:

Payment Through

- 1:Debit Card.
- 2:Credit Card.
- 3:Wallet.
- 4:Paytm/Mobikwik/phonepe etc.

Everytime the user books a card he has to go through the process:

1:The user has to select one of the options mentioned above.

2:Once he chooses the option then he will be authenticated with the OTP(One Time Password)on his registered Mobile Number.

3:Thereafter after the completion of his trip,he/she has to pay the fare with the selected option.

In this process,the user will be verified by an authentication protocol and for the secure payment the user will be authenticated again by sending the OTP on the registered mobile number and the payment will be proceeded by inputing that OTP.
