and 123458; Funder Two, Funder Two
Department, Grant/Award Number:
123459

This is a LaTeX template designed for use by the **International Journal of Quantum Chemistry**. Please consult the journal's author guidelines in order to confirm that your manuscript complies with the journal's requirements. When you are ready to submit your manuscript, download/export it in LaTeX or Word format and submit your document at <https://mc.manuscriptcentral.com/qua>. Please replace this text with your abstract.

Keywords – keyword 1, keyword 2, keyword 3, keyword 4, keyword 5, keyword 6, keyword 7.

1 | FIRST LEVEL HEADING

Please lay out your article using the section headings and example objects below, and remember to delete all help text prior to submitting your article to the journal.

1.1 | Second Level Heading

If data, scripts or other artefacts used to generate the analyses presented in the article are available via a publicly available data repository, please include a reference to the location of the material within the article.

This is an equation, numbered

$$\int_0^{+\infty} e^{-x^2} dx = \frac{\sqrt{\pi}}{2} \quad (1)$$

Abbreviations: ABC, a black cat; DEF, doesn't ever fret; GHI, goes home immediately.

TABLE 1 This is a table. Tables should be self-contained and complement, but not duplicate, information contained in the text. They should be not be provided as images. Legends should be concise but comprehensive – the table, legend and footnotes must be understandable without reference to the text.

Variables	JKL ¹ (<i>n</i> = 30)	Control (<i>n</i> = 40)	MN ²	<i>t</i> (68)
Age at testing	38	58	504.48	58 ms
Age at testing	38	58	504.48	58 ms
Age at testing	38	58	504.48	58 ms
Age at testing	38	58	504.48	58 ms
Age at testing	38	58	504.48	58 ms
Age at testing	38	58	504.48	58 ms

And one that is not numbered

$$e^{i\pi} = -1$$

1.2 | Adding Citations and a References List

You can cite bibliographic entries easily in Authorea. For example, a couple of citations follow [1]. By default citations are formatted according to the IJQC format, but you can change that in the Export Options [2]

1.2.1 | Customizing the exported PDF

You can add packages, create aliases and macros (newcommands), as well as specify corresponding address, corresponding email, funding information etc by clicking "Settings", "Edit Macros".

Fourth Level Heading

The significant problems we have cannot be solved at the same level of thinking with which we created them.

Fifth level heading Measurements should be given in SI or SI-derived units.

Chemical substances should be referred to by the generic name only. Trade names should not be used. Drugs should be referred to by their generic names. If proprietary drugs have been used in the study, refer to these by their generic name, mentioning the proprietary name, and the name and location of the manufacturer, in parentheses.

Acknowledgements

Acknowledgements should include contributions from anyone who does not meet the criteria for authorship (for example, to recognize contributions from people who provided technical help, collation of data, writing assistance, acquisition of funding, or a department chairperson who provided general support), as well as any funding or other support information.

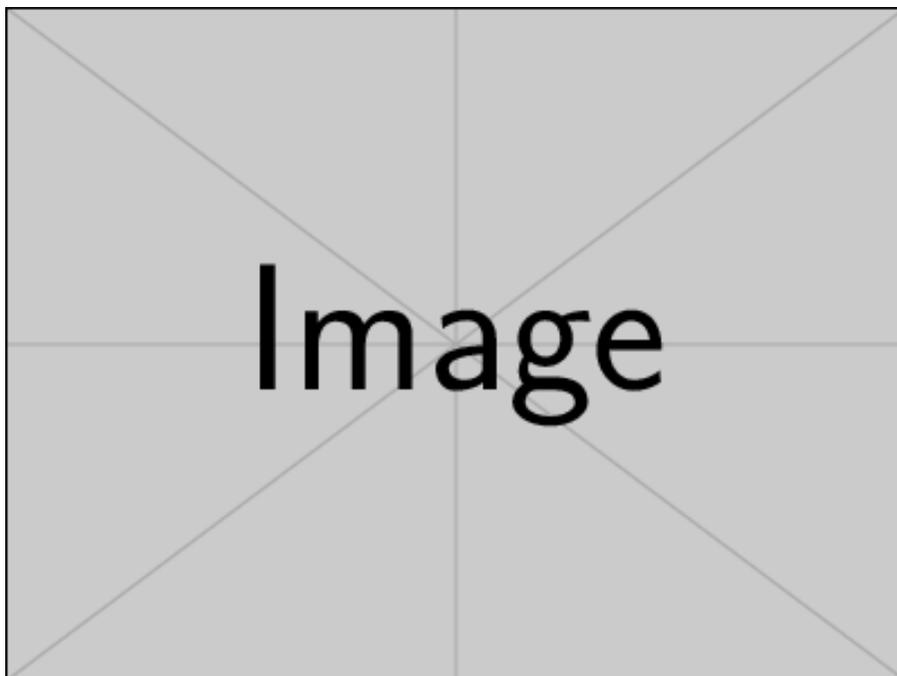

FIGURE 1 Although we encourage authors to send us the highest-quality figures possible, for peer-review purposes we can accept a wide variety of formats, sizes, and resolutions. Legends should be concise but comprehensive – the figure and its legend must be understandable without reference to the text. Include definitions of any symbols used and define/explain all abbreviations and units of measurement.

Conflict of interest

You may be asked to provide a conflict of interest statement during the submission process. Please check the journal's author guidelines for details on what to include in this section. Please ensure you liaise with all co-authors to confirm agreement with the final statement.
