

Variables	Odds ratio	95% CI	Wald	P values
AVR for AS	2.668	1.054–6.754	4.286	0.038
Hypertension	1.904	0.781–4.643	2.004	0.157
Age over 70 years	2.184	0.876–5.446	2.808	0.094

Table 6. Risk factors for postoperative silent cerebral infraction after minimally invasive cardiac surgery in the multivariate logistic regression model.

AVR, aortic valve replacement; AS, aortic stenosis; CI, confidence interval.
