

Fig. 3: F0 = fundamental frequency. Hz = Hertz. Mean F0 (Hz) - Preoperative = 171.3 ± 41.2 Hz, and Postoperative = 177.1 ± 39.5 Hz. Each line represents 1 patient. Mean variation = $5.8 \text{ Hz} \pm 10.5 \text{ Hz}$ ($P = 0.74$; CI 95% = -30.1 to 41.7).
