

16

17 **Figure 2: The number of nests of the Glanville fritillary butterfly, *Melitaea cinxia*,**
 18 **between 1993 to 2014 in five areas of the Åland archipelago.** Finström (red), Saltvik (blue),
 19 Föglö (green), Sottunga (dashed yellow) and Kumlinge-Seglinge (yellow) (Figure adapted
 20 from data included in Fountain *et al.* 2018 (Fountain *et al.*, 2018)). The number '1208'
 21 indicates the exceptional large number of nests in Finström in 2012.
