

**TABLE 4** Variation of basement elevation and depth in drainage depression

S. N.	Profile Line (PL)	Landform	Basement surface replica of ground surface	Basement depth at		Remark
				higher elevation or upper reaches	lower elevation or in lower reaches	
6	PL - 6	Drainage Depression	Yes	Deeper	Shallower	Basement depth decreases with decrease of surface elevation
7	PL - 7	Drainage Depression	Yes	Deeper	Shallower	Basement surface tapering towards lower surface elevation or in lower reaches
9	PL - 9	Drainage Depression	Yes	Deeper	Shallower	Basement depth decreases with decrease in surface elevation
10	PL - 10	Drainage Depression	Yes	Deeper	Shallower	Basement surface tapering towards lower surface elevation or in lower reaches
