

TABLE 9 Variation of water table E-W and N-S cross section (multi landforms profiles)

S. N.	Profile Line (PL)	Landform	Water table depth at		
			Higher elevation (upper reaches)	Lower elevation (lower reaches)	Uniform all along the profile
1	PL - 14	Multi Landform	Deeper (Eastern parts)		Two anomalous zones
2	PL - 15	Multi Landform	Shallower (western half)	Deeper	Fallows ground elevation trend (eastern half)
3	PL - 16	Multi Landform	Shallower (marginally)		Constant
4	PL - 17	Multi Landform		shallower (valley)	
5	PL - 18	Multi Landform	Shallower (some parts)	Deeper	
6	PL - 19	Multi Landform		shallower (few points)	Constant (overall)
