

Fig. 1 Filter article flow diagram according to inclusion criteria

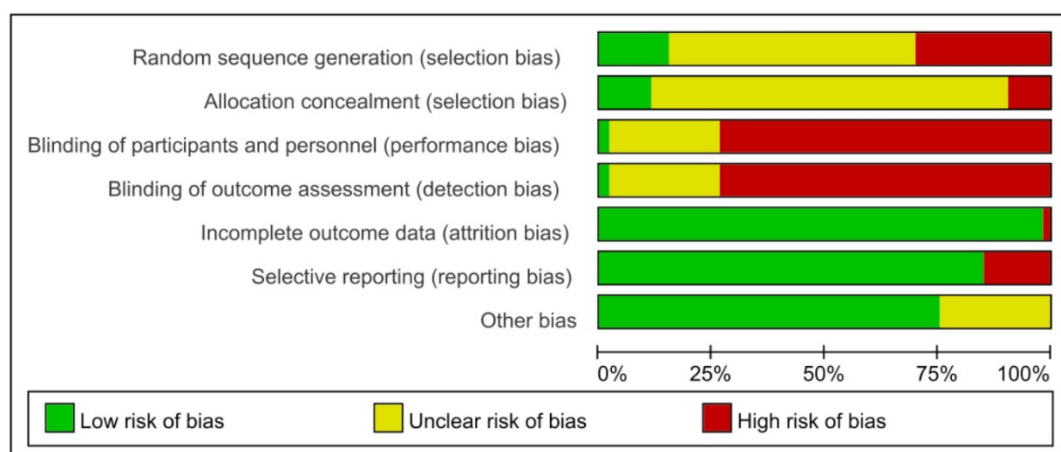

Fig.2 Assessment of the methodological quality of the included studies

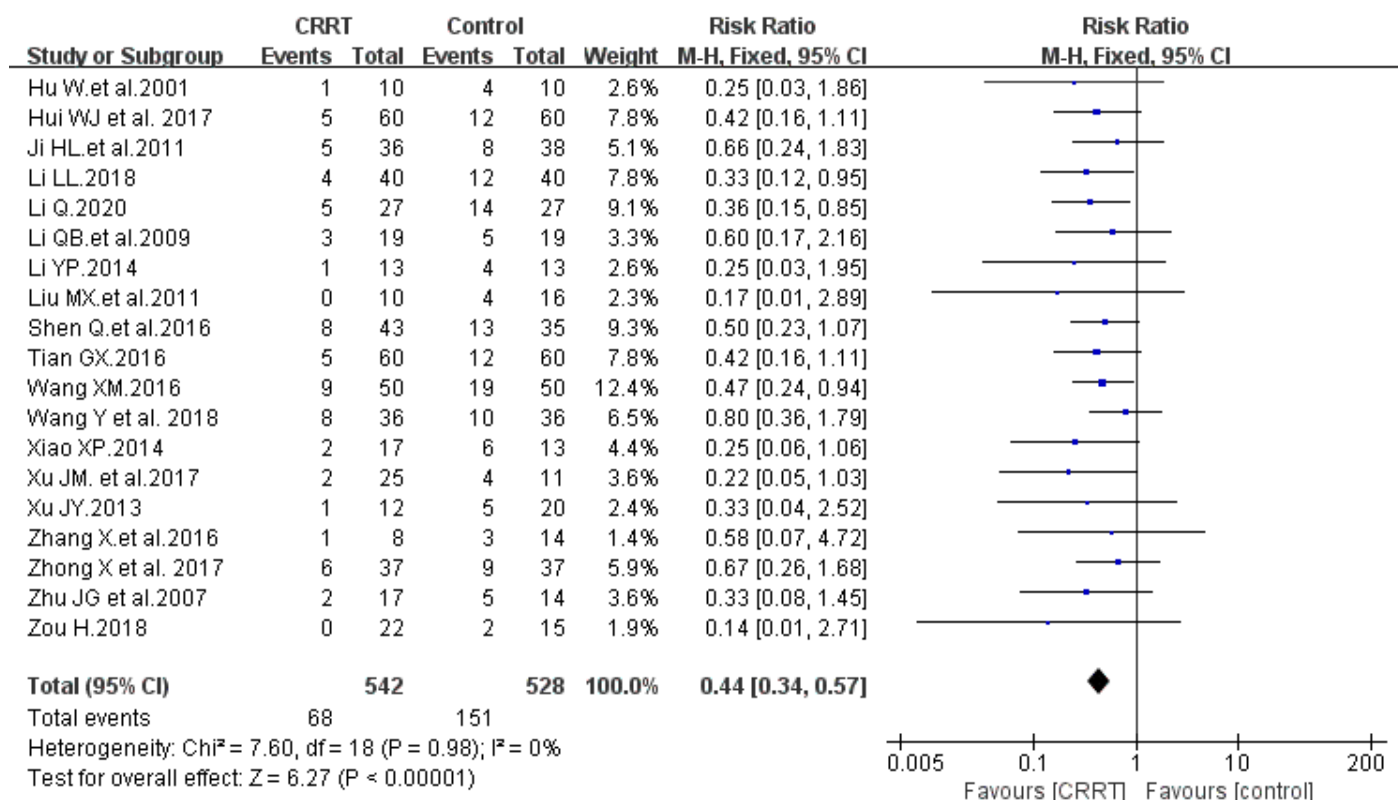

Fig.3 Comparison of forest plot of overall mortality rate between CRRT and control groups

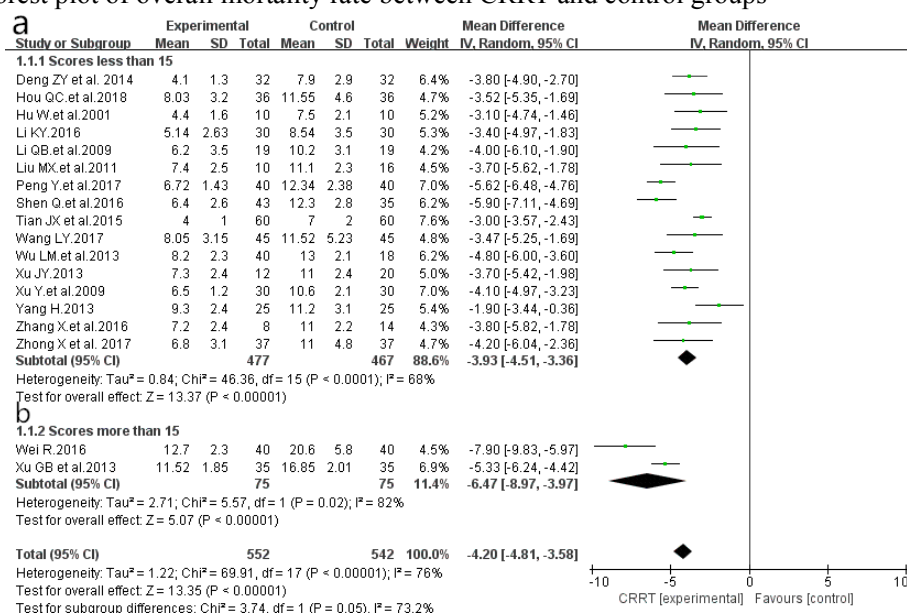

Fig.4 Comparison of forest plot of APACHEII score between CRRT and control groups. (a)The scores of the first group were less than 15 in two groups. (b)The scores of the control group were more than 15.

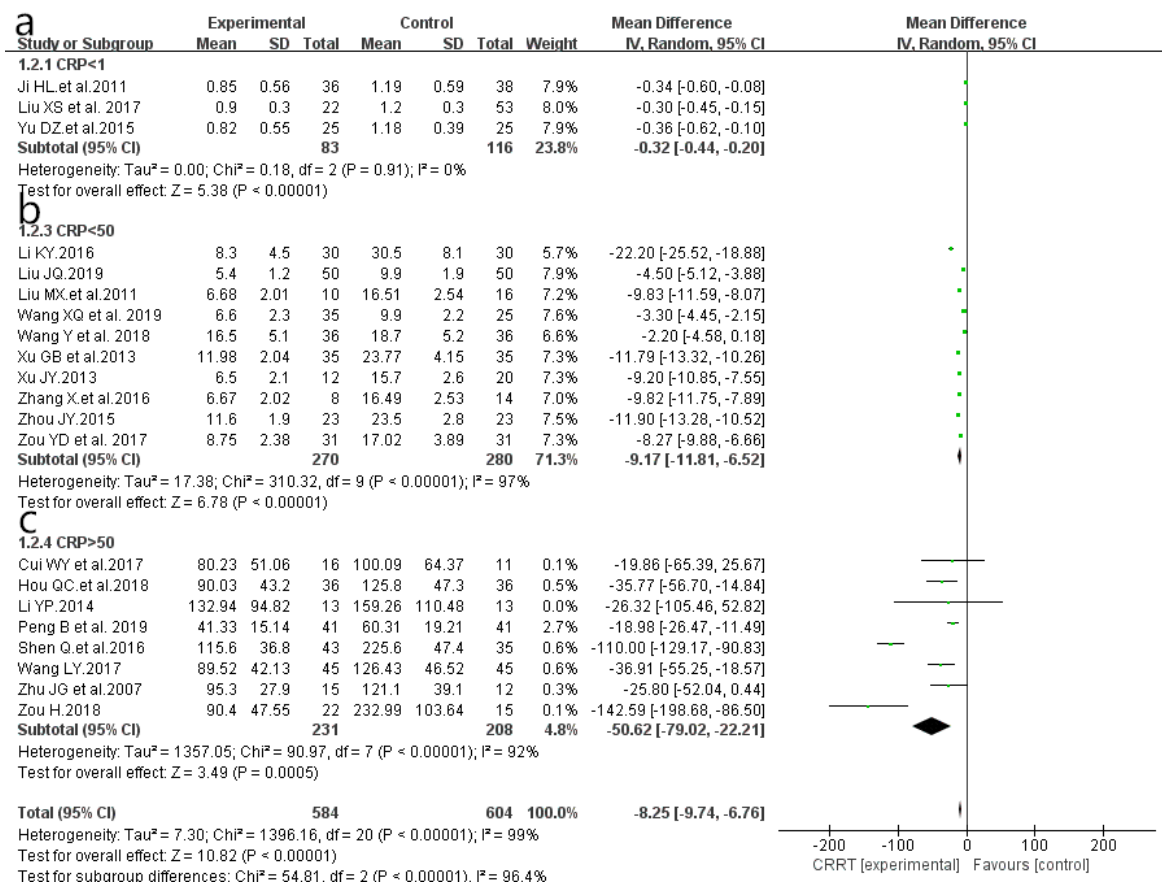

Fig.5 Comparison of forest plot of CRP clearance effect between CRRT and control groups. (a) After intervention, CRP clearance effect was below 5 in both groups. (b) CRP clearance effect was between 5 and 50 in two groups. (c) CRP clearance effect was greater than 50 in two groups.

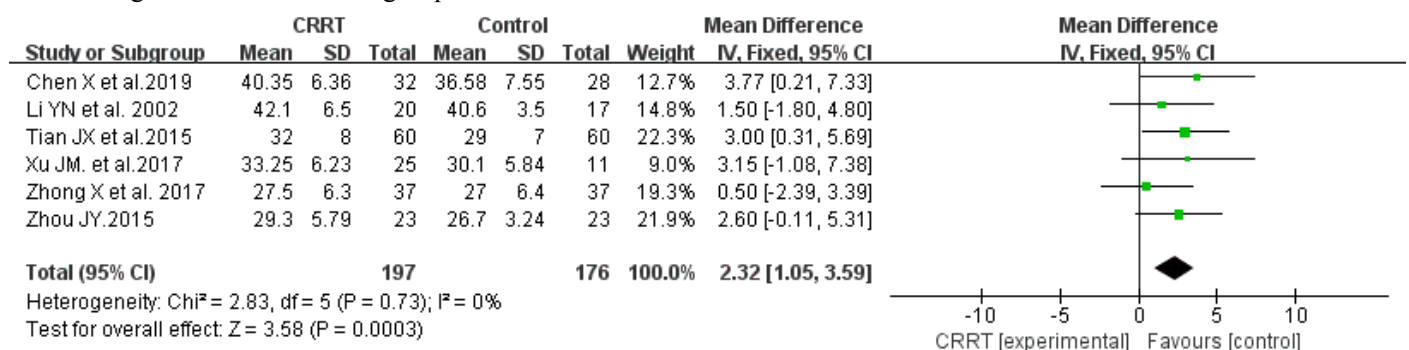

Fig.6 Comparison of forest plot of ALB level between CRRT and control groups.

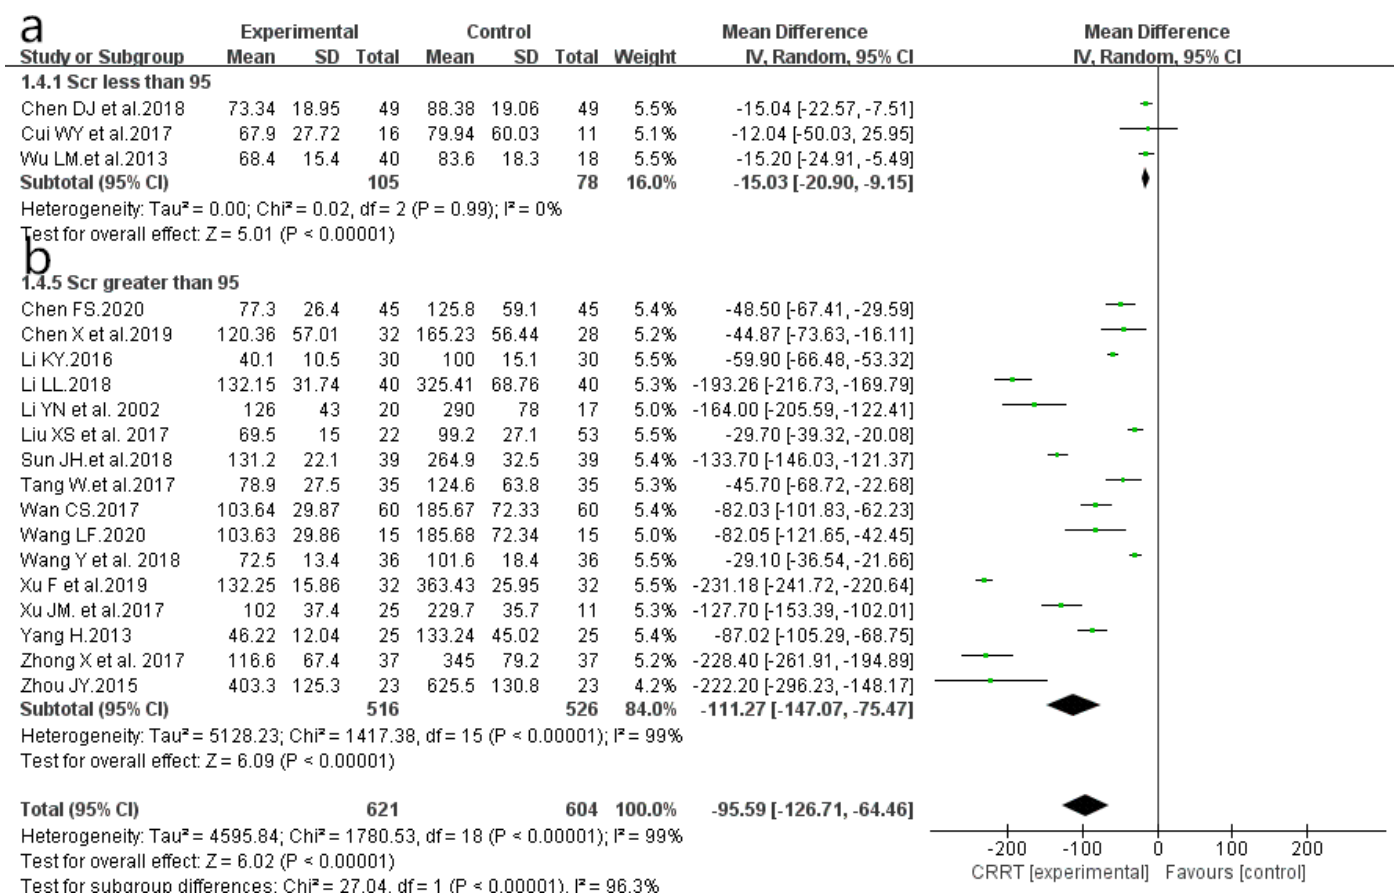

Fig.7 Comparison of forest plot of SCr level between CRRT and control groups. (a)The SCr level of two groups was less than 95. (b)The SCr level of control groups was greater than 100.

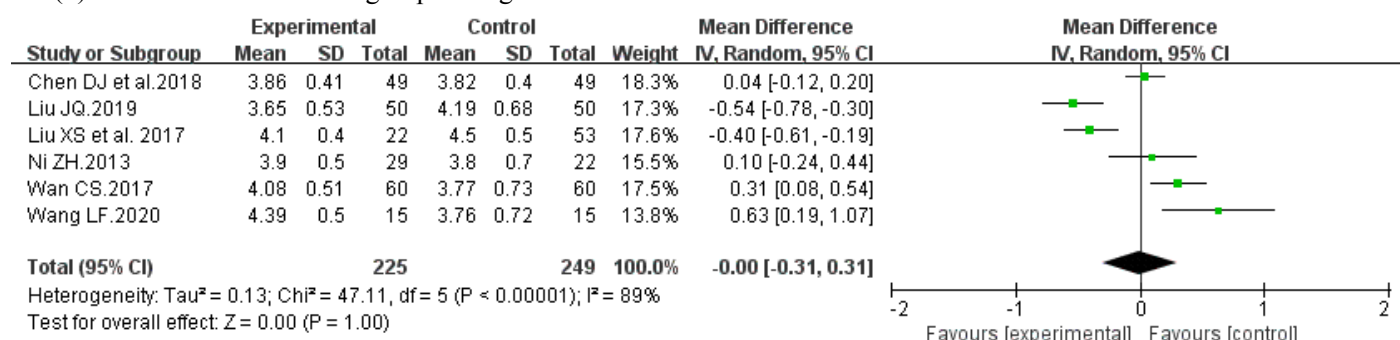

Fig.8 Comparison of forest plot of Serum potassium level between CRRT and control groups.
