

Table-1: Macroscopic adhesion scoring method

Score	Extend	Severity	Degree
0	No	No	No
1	Less than 25%	Filmy avascular	Detached with gentle traction
2	Between 25-50%	Opaque, translucent, avascular	Detached with moderate traction
3	Between 50-75%	Vascular or opaque	Detached with sharp traction
4	More than 75%	Opaque, thick veins available	-

The adhesion score is equal to the sum of the scores from each part of the adhesion. The highest possible score is 11.
