

AGU PATHFINDER ADVANCE YOURSELF

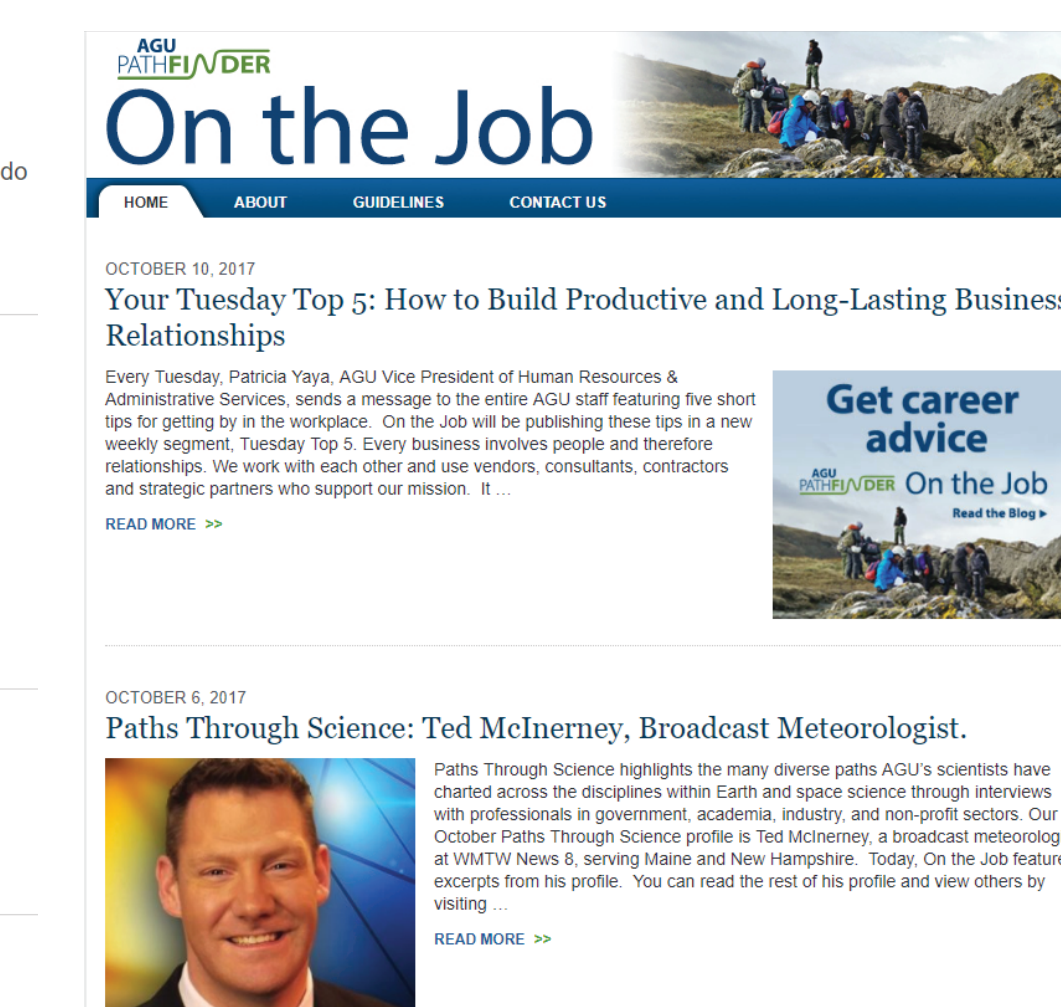

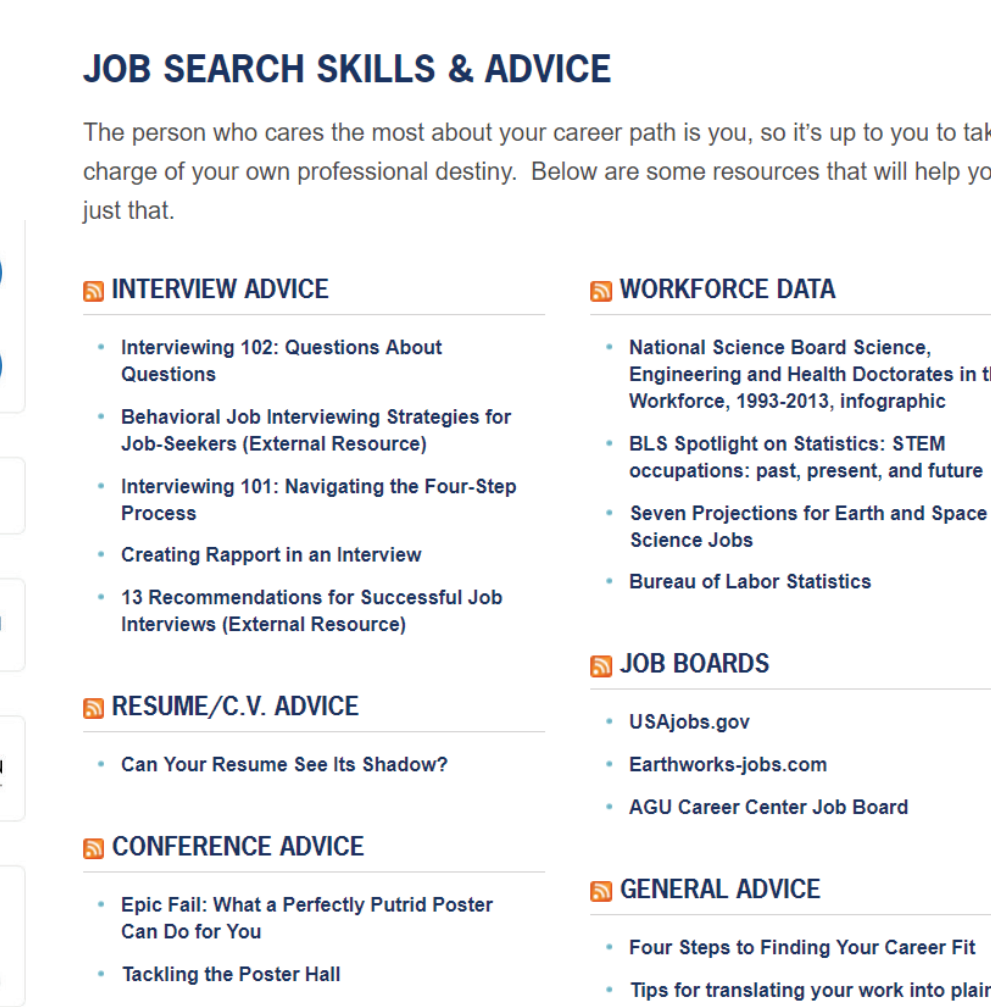

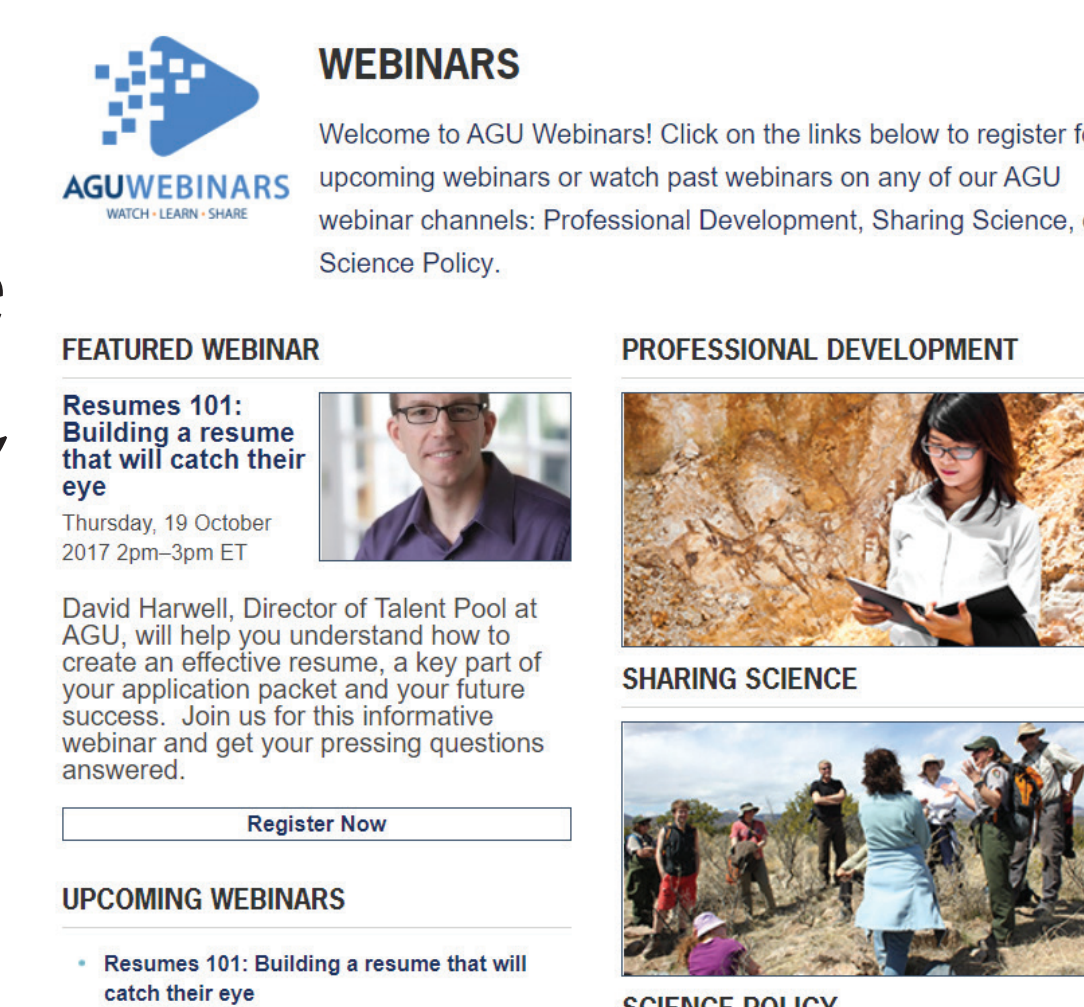

AGU Pathfinder: Professional Development Resources for Earth and Space Scientists

by David Harwell, Pranoti Asher, Erik Hankin, Nathaniel Janick, and Leslie Marasco
careers@agu.org/careers.agu.org

The American Geophysical Union (AGU) is committed to inspiring and educating present and future generations of diverse, innovative, and creative Earth and space scientists. To meet our commitment, AGU provides career and educational resources, webinars, mentoring, and support for students and professionals at each level of development to reduce barriers to achievement and to promote professional advancement.

AGU is also working with other organizations and educational institutions to collaborate on projects benefiting the greater geoscience community.

The presentation will include an overview of current Pathfinder efforts, collaborative efforts, and an appeal for additional partnerships.

Ethical & Professional Guidelines

At our Core...

- Anti-Harassment
- Code of Conduct
- Diversity Initiatives
- International &
