Fair Data Availability Statement ,MaQuls – Mars Quantum Gravity Mission'

Dear Prof. Montesi,

The paper proposes a mission scheme which does not include any underlying data or software for analysis. In consequence there is no data that we can make available or which needs to be published or made publicly available.

Please address all correspondence concerning this manuscript to lisa.woerner@dlr.de

On behalf of the MaQuls consortium with my very best regards,

Lisa Wörner
